

MAGNUM SERIES VRS PLATFORMS

Reduce sound, vibration and bounce while protecting your equipment with our Vibration Reduction System (VRS). Create an unmatched strength training environment with platforms featuring our exclusive Vibration Reduction System (VRS).

The multi-layer design minimizes vibrations transferred through floors, essential for above-ground training facilities.

Our impact-absorption platforms reduce sound by 21% and bounce by 67% caused by dropping barbells during Olympic lifts, protecting floors, bars, weights, and plates from hard use.

VRS Platform kits are available in a variety of styles and sizes, so it's easy to upgrade existing Matrix platforms to create a rugged new training experience featuring our Vibration Reduction System.

MODEL#	PRODUCT NAME	COMPATIBLE WITH RACKS	PRODUCT DIMENSIONS (L X W X H)						PRODUCT WEIGHT	
			CM			INCHES			KG	LBS
MA4794P-VRS	6' VRS PLATFORM W/HARDWOOD INSERT	MR47, MR694, A47, A694	366	254	7	144	100	2.6	227	500.5
