

ESSENTIAL COLLECTION

Ciclotte One: less is more

Taking a cue from an iconic design exercise bike, we reinterpreted materials, details and setups to create a new model with a minimalist frame and clean lines: Ciclotte One. This is the first revolutionary model of the Essential collection manufactured by MULTI-DESIGN in partnership with NOHRD™.

The Essential collection features three different variations of Ciclotte One made from exquisite materials and fitted with an innovative LED screen. Coming with renewed ergonomic features and retaining the iconic shape of Ciclotte, they are designed to suit luxury gyms, hotels and contemporary style houses.

A journey to the origin of form arising from the simplicity of continuous lines, the purity of Nordic design and the creativity of premium Italian craftsmanship to elevate your fitness experience.

Born iconic,
made essential

Essential in every detail

LED touch screen

To elevate your fitness experience, the new Ciclotte One is fitted with a LED screen that enables you to track your speed, mileage, frequency and much more in real time.

Electromagnetic resistance

A sophisticated mechanism allowing the flywheel to take a higher number of revolutions per each pedal stroke and a magnetic resistance can replicate the feeling of cycling on the road. Plus, a user-friendly interface enables you to adjust the resistance level to suit every type of workout.

Bluetooth connectivity

Connect your Essential Ciclotte to Nohrd Connect App, Zwift or Kinomap, take part in specialised training sessions, challenge your friends all over the world and enjoy an interactive experience from the comfort of your home.

Perfection is a circle

Ciclotte is a brand of fitness equipment resulting from the perfect combination of functionality and the iconic shape of design objects. It is a global design icon born in Milan, the capital of fashion, international design and premium

Italian craftsmanship. With its timeless style, Ciclotte has been featured in the most influential fashion, architecture and lifestyle magazines for over 15 years. With its instantly – and globally – recognizable shape, Ciclotte is the home fitness solution that

blends style and technology. Ciclotte is the development of Ciclò, a prototype of sustainable urban mobility which is part of the permanent collection of the museum La Triennale di Milano. Stemming from an idea of designer Luca Schieppati and

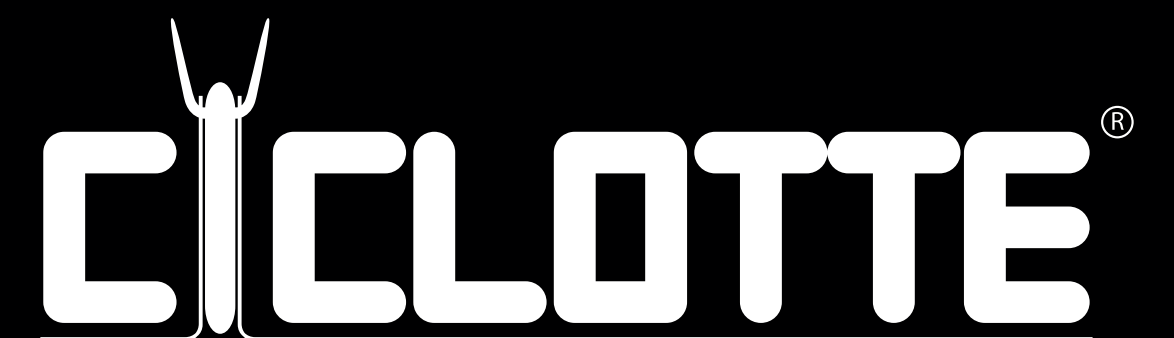

carefully executed by MULTI DESIGN, it results from the efforts of a passionate team who over the years has been working to create an exclusive product line that has conquered the world, redefining the rules of at-home workout.

Ciclotte One

A collection that embraces simplicity, the influence of Nordic design and the clear-cut features that suggest self-confidence. The new electromagnetic resistance gear devised by NOHRD™ comes into the world of Ciclotte to merge with the Italian creativity and pave the way for a new fitness experience. An iconic frame consisting of a

hollow steel single tube, ultralight electronic components and a new attractive seat design: everything has been reduced to its essentials, even weight-wise. The resulting piece is as light as the northern air; plus, it features a new LED screen and equipment connection via Nohrd Connect App, Zwift or Kinomap.

Ciclotte Nohrd

The new Ciclotte One is also available in the Nohrd version: blending design and functionality, classic and innovative materials, here the Italian soul meets the Nordic aesthetics to form an exercise bike with a minimalist frame. The fusion of German expertise and Italian taste has resulted in a work of meticulous artisanal

craftsmanship enhanced by a set of details inspired by the northern forests. This model comes with a customisable wooden crankcase available in six different types of wood: oak, beech, cherry and walnut in a variety of grades to bestow a touch of natural elegance to every house, gym or hotel.

Ciclotte One Pirelli

The feeling of being in pole position, the adrenaline rush that precedes a race, a passion for speed and a resilient attitude. The Ciclotte One Pirelli arises from a sheer passion for stellar performances and design solutions and is meant to become the ultimate benchmark for at-home fitness. We've delved into

the heart of cycling to craft an exclusive exercise bike, made from a single piece of steel to freshen up the iconic shape of Ciclotte so that every workout feels like a real race. Poise, determination and passion are all you need to pedal like a pro and ride like the wind.
