

RESIDENTIAL FITNESS / DESIGN PORTFOLIO

Kikar HaMedina Towers

Space planning, equipment and architectural visualizations.

ENGLISH EDITION / 2026

A curved, glazed frontage

An exterior view of the cardio frontage.

Across the glazed frontage

ARCHITECTURAL VISUALIZATION

The treadmill frontage

A closer view through the glazing along the treadmill row.

Standing cardio through the glass

ARCHITECTURAL VISUALIZATION

Cardio in sequence

Standing cardio equipment follows the glazed facade.

Seated cardio along the facade

ARCHITECTURAL VISUALIZATION

Space for functional training

A distinct training area within the connected gym.

The main training floor

ARCHITECTURAL VISUALIZATION

Focused strength stations

Equipment groups define the centre of the training space.

Within the strength zone

ARCHITECTURAL VISUALIZATION

The strength arrangement

An elevated view of strength stations and surrounding circulation.

Free weights and benches

ARCHITECTURAL VISUALIZATION

The barbell training area

Barbell stations connect with free-weight storage and benches.

Benches, storage and barbell stations

ARCHITECTURAL VISUALIZATION

Strength and the mirrored wall

The central strength area opens toward the mirrored training zone.

Depth, mirrors and movement

ARCHITECTURAL VISUALIZATION

A connected layout

An overall view of the proposed equipment layout.

The layout from above

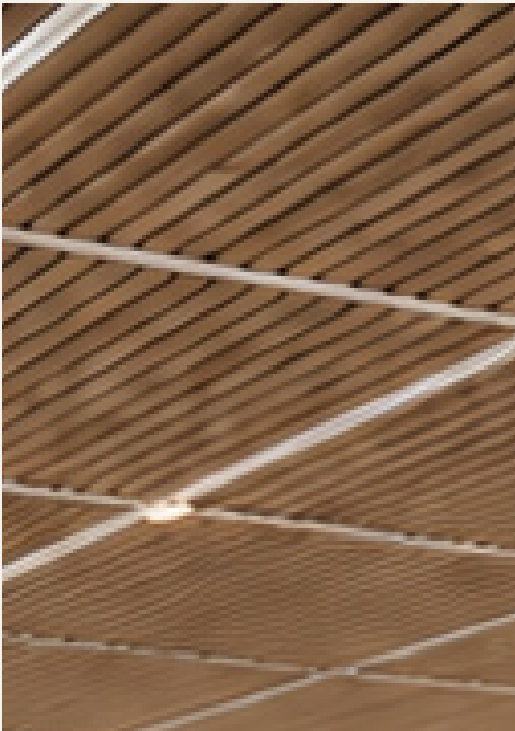

An overhead view of the proposed training zones.

Warmth, texture and light

Cream ceramic

Column finish

Coffee-toned ceiling

Linear rhythm

Pale floor

Continuous surface

Warm wall cladding

Vertical texture

Material impressions from the visualizations. Final samples and full-height mirrors to be coordinated.

Cardio equipment

7 line items / 18 listed units

DESCRIPTION	MODEL	MANUFACTURER	QTY
Treadmill	Onyx Treadmill	-	6
Cardio trainer	Onyx Ascent Trainer	-	5
Recumbent cycle	Onyx Recumbent Cycle	Matrix Fitness	2
Upright cycle	Onyx Upright Cycle	Matrix Fitness	1
Stair climber	Onyx ClimbMill	Matrix Fitness	1
Virtual training cycle	CXV Virtual Training Cycle	Matrix Fitness	2
Running treadmill	AirPlus Runner ACRT-01	Xebex Fitness	1

A dash indicates a manufacturer left blank in the supplied source. Confirm before ordering.

Strength equipment

7 line items / 7 listed units

DESCRIPTION	MODEL	MANUFACTURER	QTY
Smith machine	MG-PL62 Smith Machine	Matrix Fitness	1
Hip abduction and adduction	VS-S74	Matrix Fitness	1
Assisted chin and dip	G3-S60	Matrix Fitness	1
Biceps curl	G7-S41	Matrix Fitness	1
Abdominal crunch	G7-S51	Matrix Fitness	1
Chest press	G7-S13	Matrix Fitness	1
Lat pulldown	G7-S33	Matrix Fitness	1

Models and quantities follow the supplied source schedule.

Strength, benches and free weights

10 line items / 13 listed units

DESCRIPTION	MODEL	MANUFACTURER	QTY
Leg extension	G7-S71	Matrix Fitness	1
Leg press	G7-S70	Matrix Fitness	1
Pec fly and rear deltoid	G7-S22	Matrix Fitness	1
Seated leg curl	G7-S72	Matrix Fitness	1
Seated row	G7-S34	Matrix Fitness	1
Shoulder press	G7-S23	Matrix Fitness	1
Rack for 10 pairs of dumbbells	MG-A510	-	2
Back extension bench	MG-A52	Matrix Fitness	1
Adjustable bench	MG-A82 Adjustable Bench LP	-	3
Adjustable decline bench	MG-A61	Matrix Fitness	1

Manufacturer blanks remain as supplied. Rack capacity does not specify the dumbbells included.

Benches and accessories

7 line items / 7 listed units

DESCRIPTION	MODEL	MANUFACTURER	QTY
Preacher curl bench	MG-A62	Matrix Fitness	1
Abdominal and chin-up station	MG-A63C VKR w/Chin	Matrix Fitness	1
Olympic bench	MG-A678 Breaker	Matrix Fitness	1
Flat Olympic bench	MG-A78	Matrix Fitness	1
Accessory / source code	ZFT-VS10-7721	Ziva	1
Accessory / source code	ZXP-MFSR-7219	Ziva	1
Accessory / source code	ZXP-RKHF-1831	Ziva	1

Additional unresolved item: quantity 1, without a model or description. Identify before finalising.
Dumbbell quantity is not specified. The three Ziva accessories remain identified by source code.

A considered place to train.

Measured space

Verify the measured plan, openings, columns and clear room height.

Equipment and installation

Confirm models, dimensions, operating clearances and installation requirements.

Finishes and building systems

Coordinate material samples, mirrors, lighting, circulation and services.

Architectural visualizations illustrate the proposed design. Exterior setting is indicative.
Final geometry, finishes and equipment positions require detailed coordination.
