Treadmill

T600 / T600E

A wide running surface and AC motor provide a foundation for continuous running and challenging workouts. Choose LED for straightforward operation or a touchscreen for entertainment during training.

Motor	4.2 hp AC
Speed (220V configuration)	0.8-22 km/h
Incline	0-15%
Running surface (cm)	152 × 55.4
Dimensions (cm)	215 × 91 × 165
Maximum user weight	182 kg

Eurotec SKU

T600 – VISION-T600-LED

T600E – VISION-T600E-TOUCH

Console and electrical infrastructure depend on the selected configuration and quotation.

Suspension Elliptical

S60 / S600E

Continuous arm and leg movement without wheels or rails creates a fluid cardio workout. A low step-on height and large, closely spaced pedals make it easy to start training.

Stride length	53.4 cm
Step-on height	23 cm
Resistance levels	25
Power incline	None
Dimensions (cm)	186 × 75 × 164
Maximum user weight	182 kg

Eurotec SKU

S60 – VISION-S60-LED

S600E – VISION-S600E-TOUCH

Console and electrical infrastructure depend on the selected configuration and quotation.

Ascent Trainer

S70

Adjustable incline and stride length let users vary the challenge without changing machines. Dual-action handlebars offer multiple grips and handlebar controls for resistance and incline.

Power incline	15-37%
Variable stride length	51-58 cm
Step-on height	21.6 cm
Resistance levels	20
Dimensions (cm)	191 × 89 × 173
Maximum user weight	182 kg

Eurotec SKU

Confirmed in quotation

Console and electrical infrastructure depend on the selected configuration and quotation.

Upright Bike

U60 / U600E

A classic cycling feel in a compact machine, suitable for a wide range of fitness spaces. An adjustable seat, multiple grip positions and self-balancing pedals with straps.

Dimensions (cm)	104 × 65 × 144
Machine weight – LED model	57 kg
Maximum user weight	182 kg
Console options	LED / Entertainment

Eurotec SKU

U60 – VISION-U60-LED

U600E – VISION-U600E-TOUCH

Console and electrical infrastructure depend on the selected configuration and quotation.

Recumbent Bike

R60 / R600E

A supportive seat and open step-through design make cycling comfortable and inviting. A seat and backrest designed for support, with self-balancing pedals and adjustable straps.

Dimensions (cm)	161.9 × 72.5 × 138.3
Machine weight – LED model	74.5 kg
Maximum user weight	182 kg
Console options	LED / Entertainment

Eurotec SKU

R60 – VISION-R60-LED

R600E – VISION-R600E-TOUCH

Console and electrical infrastructure depend on the selected configuration and quotation.

Summit Stairclimber

V-SUM-SC-F

Stair training in a compact design adds a substantial cardio challenge to the training floor. Infrared user detection, dual braking, an emergency stop and full-length handrails.

Step rate	25-169 steps/min
Step-on height	25 cm
Dimensions (cm)	141.8 × 82.4 × 207
Machine weight	185 kg
Maximum user weight	182 kg
Recommended ceiling height	3 m

Eurotec SKU

LED – VISION-V-SUM-SC-LED

TOUCH – VISION-V-SUM-SC-ENT16

The console is selected separately. Confirm ceiling height and operating clearances during planning.

Indoor Cycle

IC700

Studio cycling with magnetic resistance and smooth changes between effort levels. Four-way adjustment and a sweat-protective cover. An LCD console is available as an option.

Dimensions (cm)	127 × 62 × 108
Machine weight	58 kg
Maximum user weight	159 kg
LCD display	Optional

Eurotec SKU

IC700 – VISION-SPIN-IC700

A heart-rate strap and any additional accessories are selected separately if required.

Air Bike

AB700

Air resistance increases as users work harder, making this bike especially suited to intervals. Train with legs, arms or both. Belt drive and an LCD console are included.

Dimensions (cm)	128 × 71 × 131
Machine weight	70 kg
Maximum user weight	150 kg
LCD display	Included

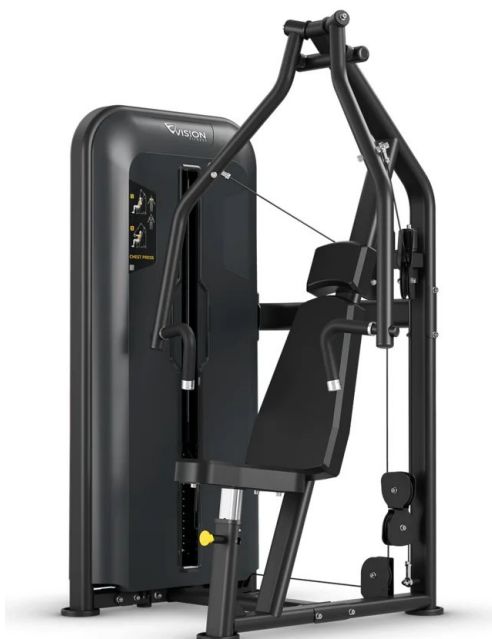

Eurotec SKU

Confirmed in quotation

A heart-rate strap and any additional accessories are selected separately if required.

Converging Chest Press

V-ACS-SL-13

Independent arms and a converging movement provide comfortable, focused pressing exercise. A seat with five height settings, open access and independently moving arms.

Dimensions (cm)	115.1 × 155.5 × 195.7
Machine weight	228 kg
Weight stack	100 kg

Eurotec SKU

V-ACS-SL-13 – VISION-ACS-SL-13

The stack weight does not necessarily equal the resistance felt at the handle.

Lateral Raise

V-ACS-SL-21

A dedicated lateral raise station completes the upper-body training area. Pin-selected resistance, exercise instructions and a guidance QR code help users get started quickly.

Dimensions (cm)	109.3 × 132.5 × 172.5
Machine weight	176 kg
Weight stack	68 kg

Eurotec SKU

V-ACS-SL-21 – VISION-ACS-SL-21

The stack weight does not necessarily equal the resistance felt at the handle.

Converging Shoulder Press

V-ACS-SL-23

A dedicated shoulder press station with converging movement and an adjustable seat. Pin-selected resistance, exercise instructions and a guidance QR code help users get started quickly.

Dimensions (cm)	150.9 × 142.9 × 172.5
Machine weight	229 kg
Weight stack	100 kg

Eurotec SKU

V-ACS-SL-23 – VISION-ACS-SL-23

The stack weight does not necessarily equal the resistance felt at the handle.

Rotary Torso

V-ACS-SL-55

Rotational torso training adds variety to the core area. Pin-selected resistance, exercise instructions and a guidance QR code help users get started quickly.

Dimensions (cm)	128.7 × 112.6 × 172.5
Machine weight	181 kg
Weight stack	68 kg

Eurotec SKU

V-ACS-SL-55 – VISION-ACS-SL-55

The stack weight does not necessarily equal the resistance felt at the handle.

Prone Leg Curl

V-ACS-SL-73

Prone hamstring training offers an alternative to seated leg curls. Pin-selected resistance, exercise instructions and a guidance QR code help users get started quickly.

Dimensions (cm)	167 × 119 × 172.5
Machine weight	209 kg
Weight stack	100 kg

Eurotec SKU

V-ACS-SL-73 – VISION-ACS-SL-73

The stack weight does not necessarily equal the resistance felt at the handle.

Rotary Hip

V-ACS-SL-76

Combine different standing hip movements in one station. Pin-selected resistance, exercise instructions and a guidance QR code help users get started quickly.

Dimensions (cm)	116.5 × 138.5 × 176
Machine weight	251 kg
Weight stack	100 kg

Eurotec SKU

V-ACS-SL-76 – VISION-ACS-SL-76

The stack weight does not necessarily equal the resistance felt at the handle.

Pec Fly / Rear Delt

V-ACS-SL-221

Two complementary movements in one station make efficient use of training space. Pin-selected resistance, exercise instructions and a guidance QR code help users get started quickly.

Dimensions (cm)	89 × 141.5 × 208.2
Machine weight	228 kg
Weight stack	100 kg

Eurotec SKU

V-ACS-SL-221 – VISION-ACS-SL-221

The stack weight does not necessarily equal the resistance felt at the handle.

Lat Pulldown / Seated Row

V-ACS-SL-331

Vertical pulldowns and horizontal rows in one machine provide a broad range of back training. Pin-selected resistance, exercise instructions and a guidance QR code help users get started quickly.

Dimensions (cm)	120 × 187.5 × 215
Machine weight	212 kg
Weight stack	86.3 kg

Eurotec SKU

V-ACS-SL-331 – VISION-ACS-SL-331

The stack weight does not necessarily equal the resistance felt at the handle.

Standing Biceps / Triceps

V-ACS-SL-401

A combined cable station covers two arm exercises in the same footprint. Pin-selected resistance, exercise instructions and a guidance QR code help users get started quickly.

Dimensions (cm)	89 × 180.5 × 215
Machine weight	180 kg
Weight stack	68 kg

Eurotec SKU

V-ACS-SL-401 – VISION-ACS-SL-401

The stack weight does not necessarily equal the resistance felt at the handle.

Ab / Low Back

V-ACS-SL-531

Two core movements in one station with pin-selected resistance. Pin-selected resistance, exercise instructions and a guidance QR code help users get started quickly.

Dimensions (cm)	134.2 × 126.2 × 172.5
Machine weight	213 kg
Weight stack	86.2 kg

Eurotec SKU

V-ACS-SL-531 – VISION-ACS-SL-531

The stack weight does not necessarily equal the resistance felt at the handle.

Chin / Dip Assist

V-ACS-SL-601

Weight assistance adapts chin-ups and dips to different training levels. Pin-selected resistance, exercise instructions and a guidance QR code help users get started quickly.

Dimensions (cm)	127.2 × 143.6 × 240.2
Machine weight	203 kg
Weight stack	68 kg

Eurotec SKU

V-ACS-SL-601 – VISION-ACS-SL-601

The stack weight does not necessarily equal the resistance felt at the handle.

Leg Press / Calf Press

V-ACS-SL-701

Leg presses and calf presses in the same station save floor space. A backrest with eight settings helps users adjust their training position.

Dimensions (cm)	214.9 × 108.1 × 172.5
Machine weight	320 kg
Weight stack	177.3 kg

Eurotec SKU

V-ACS-SL-701 – VISION-ACS-SL-701

The stack weight does not necessarily equal the resistance felt at the handle.

Leg Extension / Leg Curl

V-ACS-SL-711

Two complementary thigh exercises in one station without adding another machine. Pin-selected resistance, exercise instructions and a guidance QR code help users get started quickly.

Dimensions (cm)	141.9 × 118.8 × 172.5
Machine weight	249 kg
Weight stack	100 kg

Eurotec SKU

V-ACS-SL-711 – VISION-ACS-SL-711

The stack weight does not necessarily equal the resistance felt at the handle.

Hip Abductor / Adductor

V-ACS-SL-741

Inner and outer thigh training in one machine, with a changeover between the two movements. Pin-selected resistance, exercise instructions and a guidance QR code help users get started quickly.

Dimensions (cm)	89 × 170.4 × 172.5
Machine weight	206 kg
Weight stack	68 kg

Eurotec SKU

V-ACS-SL-741 – VISION-ACS-SL-741

The stack weight does not necessarily equal the resistance felt at the handle.

Converging Chest Press

V-KEY-SL-13

Independent arms and a converging movement provide comfortable, focused pressing exercise. A gas-assisted seat, multiple grips and a 155 cm tall weight stack.

Dimensions (cm)	140 × 125 × 155
Machine weight	237.8 kg
Weight stack	107 kg

Eurotec SKU

V-KEY-SL-13 – VISION-KEY-SL-13

The stack weight does not necessarily equal the resistance felt at the handle.

Converging Shoulder Press

V-KEY-SL-23

A dedicated shoulder press station with converging movement and an adjustable seat. Pin-selected resistance, exercise instructions and a guidance QR code help users get started quickly.

Dimensions (cm)	140 × 134 × 155
Machine weight	232.4 kg
Weight stack	107 kg

Eurotec SKU

V-KEY-SL-23 – VISION-KEY-SL-23

The stack weight does not necessarily equal the resistance felt at the handle.

Diverging Lat Pulldown

V-KEY-SL-33

A dedicated lat pulldown station adds a diverging movement path to the back area. Pin-selected resistance, exercise instructions and a guidance QR code help users get started quickly.

Dimensions (cm)	171 × 142 × 199
Machine weight	202.8 kg
Weight stack	91 kg

Eurotec SKU

V-KEY-SL-33 – VISION-KEY-SL-33

The stack weight does not necessarily equal the resistance felt at the handle.

Diverging Seated Row

V-KEY-SL-34

Seated rowing with a diverging movement completes the back training area. Pin-selected resistance, exercise instructions and a guidance QR code help users get started quickly.

Dimensions (cm)	160 × 128 × 155
Machine weight	234.8 kg
Weight stack	91 kg

Eurotec SKU

V-KEY-SL-34 – VISION-KEY-SL-34

The stack weight does not necessarily equal the resistance felt at the handle.

Biceps Curl

V-KEY-SL-40

A focused biceps station complements pulldowns and back training. Pin-selected resistance, exercise instructions and a guidance QR code help users get started quickly.

Dimensions (cm)	150 × 115 × 155
Machine weight	200.2 kg
Weight stack	73 kg

Eurotec SKU

V-KEY-SL-40 – VISION-KEY-SL-40

The stack weight does not necessarily equal the resistance felt at the handle.

Triceps Press

V-KEY-SL-42

Focused triceps training complements chest and shoulder exercises. Pin-selected resistance, exercise instructions and a guidance QR code help users get started quickly.

Dimensions (cm)	139 × 116 × 155
Machine weight	219.3 kg
Weight stack	82 kg

Eurotec SKU

V-KEY-SL-42 – VISION-KEY-SL-42

The stack weight does not necessarily equal the resistance felt at the handle.

Back Extension

V-KEY-SL-52

A dedicated seated back extension station with straightforward pin-selected resistance. Pin-selected resistance, exercise instructions and a guidance QR code help users get started quickly.

Dimensions (cm)	124 × 112 × 155
Machine weight	194.2 kg
Weight stack	73 kg

Eurotec SKU

V-KEY-SL-52 – VISION-KEY-SL-52

The stack weight does not necessarily equal the resistance felt at the handle.

Abdominal

V-KEY-SL-53

A dedicated abdominal station allows structured progression in resistance. Pin-selected resistance, exercise instructions and a guidance QR code help users get started quickly.

Dimensions (cm)	120 × 112 × 155
Machine weight	177.2 kg
Weight stack	73 kg

Eurotec SKU

V-KEY-SL-53 – VISION-KEY-SL-53

The stack weight does not necessarily equal the resistance felt at the handle.

Rotary Torso

V-KEY-SL-55

Rotational torso training adds variety to the core area. Pin-selected resistance, exercise instructions and a guidance QR code help users get started quickly.

Dimensions (cm)	121 × 123 × 155
Machine weight	189.6 kg
Weight stack	73 kg

Eurotec SKU

V-KEY-SL-55 – VISION-KEY-SL-55

The stack weight does not necessarily equal the resistance felt at the handle.

Leg Extension

V-KEY-SL-71

A focused quadriceps station pairs with a leg curl machine. Pin-selected resistance, exercise instructions and a guidance QR code help users get started quickly.

Dimensions (cm)	133 × 104 × 155
Machine weight	239.2 kg
Weight stack	107 kg

Eurotec SKU

V-KEY-SL-71 – VISION-KEY-SL-71

The stack weight does not necessarily equal the resistance felt at the handle.

Seated Leg Curl

V-KEY-SL-72

Focused hamstring training in a supported seated position. Pin-selected resistance, exercise instructions and a guidance QR code help users get started quickly.

Dimensions (cm)	160 × 98 × 155
Machine weight	243.5 kg
Weight stack	91 kg

Eurotec SKU

V-KEY-SL-72 – VISION-KEY-SL-72

The stack weight does not necessarily equal the resistance felt at the handle.

Glute Trainer

V-KEY-SL-78

A dedicated glute station creates a focused and inviting training area. Pin-selected resistance, exercise instructions and a guidance QR code help users get started quickly.

Dimensions (cm)	139 × 163 × 155
Machine weight	253.4 kg
Weight stack	73 kg

Eurotec SKU

V-KEY-SL-78 – VISION-KEY-SL-78

The stack weight does not necessarily equal the resistance felt at the handle.

Multi Press

V-KEY-SL-131

Three positions in one machine: chest press, incline press and shoulder press. A gas-assisted seat and six starting positions allow quick adjustment between exercises.

Dimensions (cm)	169 × 137 × 164
Machine weight	245.8 kg
Weight stack	91 kg

Eurotec SKU

V-KEY-SL-131 – VISION-KEY-SL-131

The stack weight does not necessarily equal the resistance felt at the handle.

Pec Fly / Rear Delt

V-KEY-SL-221

Two complementary movements in one station make efficient use of training space. Pin-selected resistance, exercise instructions and a guidance QR code help users get started quickly.

Dimensions (cm)	134 × 82 × 206
Machine weight	245.5 kg
Weight stack	107 kg

Eurotec SKU

V-KEY-SL-221 – VISION-KEY-SL-221

The stack weight does not necessarily equal the resistance felt at the handle.

Lat Pulldown / Seated Row

V-KEY-SL-331

Vertical pulldowns and horizontal rows in one machine provide a broad range of back training. Pin-selected resistance, exercise instructions and a guidance QR code help users get started quickly.

Dimensions (cm)	186 × 123 × 224
Machine weight	217.9 kg
Weight stack	86 kg

Eurotec SKU

V-KEY-SL-331 – VISION-KEY-SL-331

The stack weight does not necessarily equal the resistance felt at the handle.

Ab / Low Back

V-KEY-SL-531

Two core movements in one station with pin-selected resistance. Pin-selected resistance, exercise instructions and a guidance QR code help users get started quickly.

Dimensions (cm)	124 × 115 × 155
Machine weight	196.4 kg
Weight stack	73 kg

Eurotec SKU

V-KEY-SL-531 – VISION-KEY-SL-531

The stack weight does not necessarily equal the resistance felt at the handle.

Chin / Dip Assist

V-KEY-SL-601

Weight assistance adapts chin-ups and dips to different training levels. Pin-selected resistance, exercise instructions and a guidance QR code help users get started quickly.

Dimensions (cm)	155 × 155 × 230
Machine weight	290 kg
Weight stack	93 kg

Eurotec SKU

V-KEY-SL-601 – VISION-KEY-SL-601

The stack weight does not necessarily equal the resistance felt at the handle.

Leg Press / Calf Press

V-KEY-SL-701

Leg presses and calf presses in the same station save floor space. Pin-selected resistance, exercise instructions and a guidance QR code help users get started quickly.

Dimensions (cm)	195 × 106 × 155
Machine weight	301.8 kg
Weight stack	140 kg

Eurotec SKU

V-KEY-SL-701 – VISION-KEY-SL-701

The stack weight does not necessarily equal the resistance felt at the handle.

Leg Extension / Leg Curl

V-KEY-SL-711

Two complementary thigh exercises in one station without adding another machine. Pin-selected resistance, exercise instructions and a guidance QR code help users get started quickly.

Dimensions (cm)	142 × 118 × 155
Machine weight	271.5 kg
Weight stack	107 kg

Eurotec SKU

V-KEY-SL-711 – VISION-KEY-SL-711

The stack weight does not necessarily equal the resistance felt at the handle.

Hip Abductor / Adductor

V-KEY-SL-741

Inner and outer thigh training in one machine, with a changeover between the two movements. Eight starting positions and rotating leg pads adjust the range of motion.

Dimensions (cm)	169 × 82 × 155
Machine weight	214.4 kg
Weight stack	73 kg

Eurotec SKU

V-KEY-SL-741 – VISION-KEY-SL-741

The stack weight does not necessarily equal the resistance felt at the handle.

Leg Press

VST700-PL70

A large footplate, adjustable backrest and a handle that assists entry and exit. Plate loading allows the training weight to be selected for each user.

Dimensions (cm)	231.5 × 138.4 × 150.9
Machine weight	209 kg

Eurotec SKU

VST700-PL70 – VISION-VST700-PL70

Weight plates and related accessories are selected separately in the quotation.

Leg Extension

VST700-PL71

A focused quadriceps station pairs with a leg curl machine. Plate loading allows the training weight to be selected for each user.

Dimensions (cm)	159.6 × 140.4 × 104
Machine weight	104 kg

Eurotec SKU
VST700-PL71 – VISION-VST700-PL71

Weight plates and related accessories are selected separately in the quotation.

Kneeling Leg Curl

VST700-PL74

Focused hamstring training in a kneeling position with plate-loaded resistance. Plate loading allows the training weight to be selected for each user.

Dimensions (cm)	159.3 × 123 × 127.4
Machine weight	113 kg

Eurotec SKU

VST700-PL74 – VISION-VST700-PL74

Weight plates and related accessories are selected separately in the quotation.

Seated Calf Raise

VST700-PL77

An adjustable knee pad, angled foot support and quick release to start the set. Plate loading allows the training weight to be selected for each user.

Dimensions (cm)	152.8 × 75 × 92
Machine weight	62 kg

Eurotec SKU

VST700-PL77 – VISION-VST700-PL77

Weight plates and related accessories are selected separately in the quotation.

Glute Trainer

VST700-PL78

A dedicated hip-thrust position with a large, non-slip footplate. Plate loading allows the training weight to be selected for each user.

Dimensions (cm)	123.5 × 145.4 × 106.3
Machine weight	132.5 kg

Eurotec SKU
VST700-PL78 – VISION-VST700-PL78

Weight plates and related accessories are selected separately in the quotation.

Standing Hack Squat

VST700-PL80

A standing squat station expands the range of leg training options. Plate loading allows the training weight to be selected for each user.

Dimensions (cm)	195.4 × 153.5 × 153.6
Machine weight	85.2 kg

Eurotec SKU

VST700-PL80 – VISION-VST700-PL80

Weight plates and related accessories are selected separately in the quotation.

Hack Squat

VST700-PL81

A large footplate and four storage horns keep the training area organized. Plate loading allows the training weight to be selected for each user.

Dimensions (cm)	219.1 × 136.4 × 145.1
Machine weight	200 kg

Eurotec SKU

VST700-PL81 – VISION-VST700-PL81

Weight plates and related accessories are selected separately in the quotation.

Vertical Chest Press

VST700-PL13

A plate-loaded chest press station completes the strength floor. Plate loading allows the training weight to be selected for each user.

Dimensions (cm)	204.1 × 135.8 × 177.8
Machine weight	156 kg

Eurotec SKU
VST700-PL13 – VISION-VST700-PL13

Weight plates and related accessories are selected separately in the quotation.

Shoulder Press

VST700-PL23

A gas-assisted seat and four weight storage horns create an organized pressing station. Plate loading allows the training weight to be selected for each user.

Dimensions (cm)	152.9 × 151.1 × 142.9
Machine weight	143.4 kg

Eurotec SKU
VST700-PL23 – VISION-VST700-PL23

Weight plates and related accessories are selected separately in the quotation.

Lat Pulldown

VST700-PL33

A gas-assisted seat and four weight storage horns support focused back training. Plate loading allows the training weight to be selected for each user.

Dimensions (cm)	168.8 × 162.3 × 195.5
Machine weight	147 kg

Eurotec SKU

VST700-PL33 – VISION-VST700-PL33

Weight plates and related accessories are selected separately in the quotation.

Incline Lever Row

VST700-PL36

Rotating handles with two grip options and two foot positions. Plate loading allows the training weight to be selected for each user.

Dimensions (cm)	199.1 × 130 × 125.4
Machine weight	98 kg

Eurotec SKU

VST700-PL36 – VISION-VST700-PL36

Weight plates and related accessories are selected separately in the quotation.

Biceps Curl

VST700-PL40

A focused biceps station complements pulldowns and back training. Plate loading allows the training weight to be selected for each user.

Dimensions (cm)	161.4 × 110.8 × 101.1
Machine weight	100 kg

Eurotec SKU

VST700-PL40 – VISION-VST700-PL40

Weight plates and related accessories are selected separately in the quotation.

Triceps Press

VST700-PL42

Focused triceps training complements chest and shoulder exercises. Plate loading allows the training weight to be selected for each user.

Dimensions (cm)	161.4 × 121.3 × 129.8
Machine weight	94 kg

Eurotec SKU
VST700-PL42 – VISION-VST700-PL42

Weight plates and related accessories are selected separately in the quotation.

Smith Machine

VST700-PL62

A 90-degree vertical path, linear bearings and a counterbalanced bar provide smooth movement. Plate loading allows the training weight to be selected for each user.

Dimensions (cm)	224.3 × 122.5 × 232.2
Machine weight	204 kg
Starting bar resistance	9.7 kg

Eurotec SKU

VST700-PL62 – VISION-VST700-PL62

Weight plates and related accessories are selected separately in the quotation.

Dumbbell Rack

VST600-FW510

Dedicated cradles for 10 pairs, angled at 15 degrees for easy removal and return. A complementary solution for an organized, easy-to-use strength area.

Dimensions (cm)	212 × 65 × 80
Machine weight	57 kg
Capacity	10 pairs of dumbbells

Eurotec SKU

VST600-FW510 – VISION-VST600-FW510

Dumbbells, bars and plates shown in images are not included unless specified in the quotation.

Back Extension Bench

VST700-FW52

13 adjustment positions, non-slip foot platforms and resistance-band attachment points. A complementary solution for an organized, easy-to-use strength area.

Dimensions (cm)	134.3 × 93.8 × 99.9
Machine weight	44 kg

Eurotec SKU

VST700-FW52 – VISION-VST700-FW52

Dumbbells, bars and plates shown in images are not included unless specified in the quotation.

Flat Bench

VST700-FW59

A wide back pad and integrated wheels complete the free-weight area. A complementary solution for an organized, easy-to-use strength area.

Dimensions (cm)	133 × 83.8 × 43.2
Machine weight	25 kg

Eurotec SKU
VST700-FW59 – VISION-VST700-FW59

Dumbbells, bars and plates shown in images are not included unless specified in the quotation.

VKR w/Chin

VST700-FW63

Multiple chin-up grips, elbow supports and an angled backrest. A complementary solution for an organized, easy-to-use strength area.

Dimensions (cm)	158.5 × 146.7 × 240.3
Machine weight	118.5 kg

Eurotec SKU

VST700-FW63 – VISION-VST700-FW63

Dumbbells, bars and plates shown in images are not included unless specified in the quotation.

Weight Tree

VST700-FW67

Eight angled storage horns, a band holder and protectors to preserve the frame finish. A complementary solution for an organized, easy-to-use strength area.

Dimensions (cm)	91.6 × 83.1 × 120.8
Machine weight	47 kg

Eurotec SKU

VST700-FW67 – VISION-VST700-FW67

Dumbbells, bars and plates shown in images are not included unless specified in the quotation.

Olympic Flat Bench

VST700-FW78

A wide back pad, bar protectors and four weight storage horns. A complementary solution for an organized, easy-to-use strength area.

Dimensions (cm)	183 × 170.9 × 131.4
Machine weight	85.1 kg

Eurotec SKU
VST700-FW78 – VISION-VST700-FW78

Dumbbells, bars and plates shown in images are not included unless specified in the quotation.

Olympic Incline Bench
