

A muscular man with short, dark, curly hair is shown from the waist up, leaning slightly forward and looking off to the side. He is wearing a black short-sleeved t-shirt with the word "ZIVA" in yellow on the chest. He is holding two dumbbells, one in each hand. The dumbbell in his right hand is labeled "17.5 ZIVA". The background is a dark grey wall with a window on the right side showing a cityscape.

SOLUTIONS**

2024 EXPANDING OUR STRENGTH TRAINING PORTFOLIO

As we roll toward 2024, we see a resurgent fitness industry riding a growing wave of trends toward better health, greater fitness, and a growing love for training. We see it in the exploding popularity of Olympic lifting. We see it in the continued adoption of HIIT and functional training principles. We see it in the ever more widespread community building that happens in group fitness classes of all kinds all over the world. And because we have had our ear to the ground (or maybe gym floor?) for nearly 15 years, we are heading into 2024 with solutions that meet the needs of all these trending demands. From new platforms and racks to new modular systems and a dizzying array of add-ons and accessories, ZIVA is bringing innovative solutions that empower strength training facilities and athletes alike with unsurpassed quality, unequaled reliability, and performance that is second-to-none.

The ZIVA Way To Live is upheld by 3 Pillars that support all of our design thinking, product development, and service. They are the Pillars of Solutions, Design and Innovation.

SOLUTIONS

1

All of our products are solutions to the needs of the market and our customers, and over time our offerings have expanded to include solutions for nearly every aspect of free weight training. Whether in big box gyms, boutique fitness studios, or in athletes' homes, ZIVA is there. We have solutions for HIIT workouts, powerlifting, group fitness classes, functional fitness training, bodybuilding, yoga, and suspension training. We bring the solutions of modern science to age old fitness needs and create cutting-edge solutions to the market's newest needs of the day.

DESIGN

2

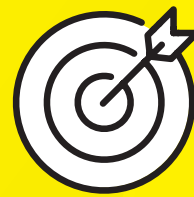

At ZIVA, design is our love language. We take the utmost pride in crafting equipment that fuses form and function. Sleek, curved lines, flashing chrome and ZIVA Yellow accents, and products that are both ergonomic and beautiful define our entire range. Our free weights stand as functional sculptures and our storage racks double as displays, elevating the atmosphere of any space that chooses our solutions.

INNOVATION

3

We weave innovation into all our products, new and old. Our free weights use the most innovative material science to make them last longer and look better. Our bars use the most innovative manufacturing and testing to guarantee safe, smooth lifts. Our supply chain and logistics undergo constant innovation and reinforcement so we have reliable inventory that arrives in reliably perfect condition. And this spirit of innovation is infused throughout our product pipeline so when innovative new fitness trends gain popularity we are already there with a solution to meet our customers' needs.

SOLUTIONS

SL RPU DUMBBELLS, BARBELLS, AND EZ BARS

SL coats now include RPU, a truly amazing innovation in materials science that has been pioneered by ZIVA. This revolutionary new coat makes our best-in-class SL products even better. Compared with the very best rubber products, SL now brings far greater durability, far truer color duplication, and a better value than any similarly positioned product. Combined with our always amazing aesthetics and premium performance, this makes the new SL dumbbells, barbells, and EZ bars the best solution on the market.

- **The end of rubber**
- **Superior durability, color duplication, and value**
- **Innovative material**

SL RPU DUMBBELLS

ZIVA SL RPU Dumbbells update the timeless dumbbell design with a marvel of modern material science: RPU. This coat, which serves as a protective cover on the dumbbells’ solid steel heads, combines the bounce of rubber - a crucial quality for protecting the weights, gym floors, and users - and the ultra-high durability of polyurethane, making them UV-, corrosion-, water-, scratch-, and tear-resistant, as well as longer lasting than any competitor in its class. Scratch-proof, chrome-finished handles with grip-assisting knurling along the center of the handle and large, easy ID weight numbers means they also look as good as they perform.

SL URETHANE HEXAGON DUMBBELLS AND ST2 HEXAGON DUMBBELL RACK

Iconic design never goes out of fashion and the sleek curve of our new ST2 Hexagon Dumbbell Rack is the perfect example of timeless aesthetics. To match its timelessness, we are introducing one of our most advanced, longest lifespan dumbbells: the SL Urethane Hexagon Dumbbell. Any gym considering hexagon dumbbells and with an eye to having the best quality and best look should consider both of these outstanding pieces.

ST2 2.5-25KG Hexagon Dumbbell Rack:

- **Sleek, eye-catching design**
- **Vertical space saving frame**
- **Stores 2-25kg dumbbells**

SL Urethane Hexagon Dumbbells:

- **A modernized timeless classic**
- **Ultra-long lifespan**
- **Scratch- and scuff-proof**

SL URETHANE HEXAGON DUMBBELLS

The ZIVA® SL Urethane Hexagon Dumbbell updates the old classic with a coat of unparalleled durability. These dumbbells feature the iconic no-roll design; straight, fully knurled chrome-finished handles; and large, easy ID weight numbers. Their urethane coat is where they are strongest. This ultra-long-lasting material is scratch- and scuff-proof and gives these dumbbells a wonderfully long lifespan with an undeniably premium look and feel.

SOLUTIONS

SL AND XP2 ECO BUMPER DISCS

With an eye on the rapidly expanding population of Olympic lifters, we have created a new, premium rubber mix for our SL and XP2 Bumper Discs. Both now feature a reformulated rubber composition and delivers greater cost-effectiveness at the same time as it gives solid performance. On the XP2, this means quality at a more attractive price, and on the SL, with its easy sliding, stainless steel inserts, and great performance.

SL Bumper Discs:

- New premium rubber formulation
- Chrome hub for clamp free lifting
- 450mm diameter

XP2 Eco Bumper Discs:

- Economical solution for Olympic lifters
- Stainless steel insert
- 450mm diameter

SL RUBBER COMPETITION COLORED TRAINING BUMPER DISCS

The ZIVA SL Rubber Competition Colored Training Bumper Disc is made with premium rubber to absorb the shock of Olympic competition while providing floor protection and superior performance. Their hard-wearing, shock absorbent rubber coats make them perfect for increasingly popular Olympic lifts because even when dropped from an overhead position, they resist cracks and deformation. These premium weight discs are crafted with beveled edges for easy pick up and come with a large scratch- and rust-resistant chrome-plated internal hub that allows for smoother loading and unloading as well as rotation on the bar. In vibrant standard IWF competition colors, these discs are as close to competition day as you can get.

SOLUTIONS

ZVO PREMIUM OLYMPIC BAR

The new offering of our ZVO Premium Olympic Bars brings peak performance to an expanded Olympic lifting crowd. These barbells, rated for 680kg., are near the top of the line for what any fitness enthusiast will ever need. With the choice of scratch-resistant premium chrome or black oxide finish, deep knurling so users' grip stays strong, and needle bearings within the chromed collars for smooth rotation throughout every lift, they are the base camp before moving toward ultra-premium elite equipment.

- **Rated up to 680kg**
- **The level of premium**
- **Scratch- and rust-resistant premium finishes**

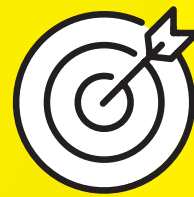

ZVO PREMIUM OLYMPIC BARS

ZIVA ZVO Premium Olympic Bars are the gold standard for weight lifting and strength building. Rated to 680kg/1,500 lbs. with needle bearings in the premium chrome plated sleeves for super-smooth rotation, these bars are made to meet the most rigorous training requirements for Olympic lifters, Crossfitters, bodybuilders, and most other elite athletes. Etched with grip-assisting knurling, these Premium Olympic Bars are a very visible testament to a gym's commitment to excellence and its members improvement.

SOLUTIONS

XP LOW PROFILE HALF RACK AND BACK-TO-BACK HALF RACK

Regardless of gym size, the need for secure, stable, steady racks will always be a constant. With this in mind, we have crafted several solutions that help gyms of all shapes and sizes effectively pack more power into whatever spaces they have. The XP Low Profile and XP Double Back-to-Back Half Racks both feature ZIVA's signature quality and performance with more efficient and versatile use of less floorspace, making them big on strength and small on footprint.

- **Newly designed space-saving rack options**
 - **Maximizes usable space**
 - **Big on strength, small on footprint**

XP LOW PROFILE HALF RACK WITH STORAGE

The XP Low Profile Half Rack with Storage is the ultimate embodiment of strength packed in a small size. This Rack features 8x storage pegs for weight discs, pull-up bars with multiple grips, and comes with sturdy PVC J-cups and safety arms with a protective PVC top layer. Built from incredibly tough steel plate and tubing with a scratch- and rust-resistant black powder coat, its entire frame features laser cut holes where a variety of XP Rig Attachments and other ZIVA Accessories can attach to make this space-saving rig a total body workout hub.

SOLUTIONS

XP WOODEN LIFTING PLATFORMS

To satisfy the growing population of Olympic lifters who can increasingly be found in every gym, we are introducing a range of XP Platforms created to deliver optimum stability with a premium wood base and superior shock absorption with purpose-made rubber tiles. Available in a variety of sizes made to fit any rack and any floorplan, our platforms let any gym be a PR smashing gym.

- **Serves growing population of Olympic lifters**
- **Features premium wood and shock absorbing tiles, lasered logo**
- **Let users smash PBs without smashing gym floors**

XP POWER RACK WOODEN LIFTING PLATFORM

The ZIVA XP Power Rack Wooden Lifting Platform is the ultimate powerlifting platform. The extended wooden center gives athletes a super-steady platform on which to perform deadlifts, squats, or bench press, while the shock absorbent rubber tiles on either side are made to handle the heavy weights for which deadlifts are famous. The entire structure is bound tightly together in a steel frame with precision bent gussets and notches perfectly placed to fit the ZIVA Power Rack, and the entire structure can be easily bolted together and requires no bolting down.

Order Code	Item Description
ZXP-PRCR-8949W	XP Power Rack Wooden Lifting Platform 25mm
ZXP-PRCR-8018	XP Power Rack Wooden Lifting Platform 50mm

Description		XP Power Rack Wooden Lifting Platform
Specifications		Steel frame, laser-cut and precision bent gussets, bolt together design, rubber tiles, wood center and does not need to be bolted to the ground
Color Options		Black / Grey / Wood Black / Yellow / Wood
Dimensions		251cm x 301cm
Warranty		Limited 1 year

XP HALF RACK WOODEN LIFTING PLATFORMS

The ZIVA XP Half Rack Wooden Lifting Platform serves as a specialty squat and deadlift platform. The wooden center gives athletes a super-steady platform while the shock absorbent rubber tiles on either side are made to handle the heavy weights that deadlifts are famous for. Everything is bound tightly together in a steel frame with precision bent gussets and notches perfectly placed to fit the ZIVA XP Half Rack, and the entire structure can be easily bolted together and requires no bolting down. This platform makes gyms' Half Racks wholly attractive.

XP OLYMPIC WOODEN LIFTING PLATFORM

The ZIVA XP Olympic Wooden Lifting Platform caters to the ever increasing number of athletes who practice the Olympic lift and all of its accessory movements. This ultra-heavy-duty platform features a central bamboo platform designed to give lifters the smallest measure of flex underfoot while the sides are made of shock absorbent rubber tiles made to take the extreme beating of heavy weights dropped from high heights. All panels are tightly bound in a steel frame with precision bent gussets that are easily bolted together but require no bolting down. For any gym that seeks to attract the growing crowd of Olympic lifters, this platform is a must-have.

Warranty		Limited 1 year

XP LOW PROFILE OLYMPIC WOODEN PLATFORM

The ZIVA XP Low Profile Olympic Wooden Platform gives Olympic lifters a dedicated space without sacrificing valuable floor space. This heavy-duty platform features a super stable central bamboo platform designed to give the smallest bit of flex underfoot while the shock absorbent rubber side tiles safely dissipate the incredible force of Olympic weights being dropped from overhead heights. The entire platform is tightly bound on each side with steel framing and precision bent gussets, and is easily bolted together while requiring no bolting down. For gyms looking to attract Olympic lifters and save space, this platform is a must-have.

SOLUTIONS

SPACE SAVING WALL-MOUNTED RIGS

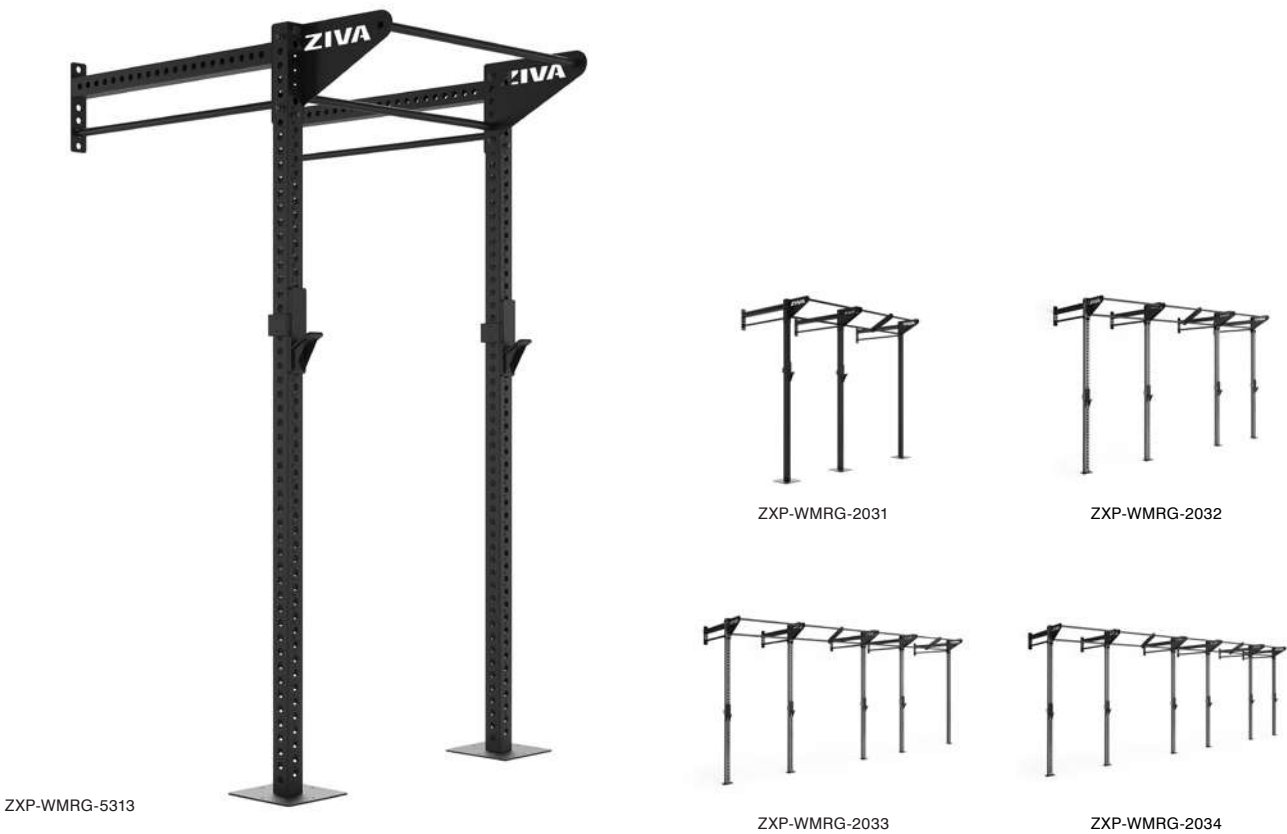

To help gyms of all sizes make more efficient and creative use of their space, we have designed more modular solutions that allow more users to do more with less. This means bigger classes, bigger memberships, and bigger profits for all gyms.

- **Allows greater versatility**
- **Can be tailored to unique spaces**

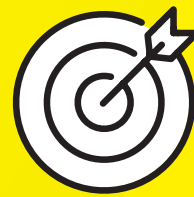

XP SPACE SAVING WALL-MOUNTED RIGS

XP Space Saving Wall-Mounted Rigs are expandable and customizable, and come with zinc-coated hardware to bolt directly into walls to help maximize efficient use of space. Crafted from thick steel tubing with a scratch-, corrosion-, and rust-resistant black powder coat, each section includes dual-height flying pull-up bars and a pair of J-Cups, and can be attached or detached piece-by-piece depending on a space's overall layout and design. The Rigs' laser-cut holes are made to fit all XP Rig Attachments so gym owners can create tailor-made storage and training hubs made to match their unique needs.

BALL RACKS AND STORAGE STATION

Space increasingly comes at a price and great looks and organization are key to attracting clients. Our newly designed Ball Racks and Storage Station do double duty, keeping floors uncluttered with space-efficient racks, and displaying our beautifully designed equipment on perfectly positioned shelves.

- **Space saving vertical design**
- **Keeps gym floors safe and free of clutter**
- **Equal parts display and storage**

XP MODULAR STORAGE RACK (2.0M)

The XP Modular Storage Rack System is the gold standard for storage. Built from steel tubing and thick plate steel, it holds anything and everything. From plates to dumbbells, kettlebells, bags, and balls of every size, this Storage Rack System keeps all manner of gym equipment on hand and perfectly organized. Even usually cumbersome balls are kept perfectly in place thanks to its specially designed steel tube shelving. But its most amazing feature is its customizability. If your facility has more equipment than a single set of shelving can handle, Modular of the system is simple and easy and saves space versus two separate storage solutions.

FUNCTIONAL BENCH

Where space is limited, multifunctionality is king, and few pieces are as multifunctional as our new Functional Bench. Designed to serve as both a flat and incline bench; a storage hub for dumbbells, kettlebells, and resistance bands; and an anchor for resistance bands and suspension trainers.

- **Turns a limited space into a fully functioning gym**
- **Multifunctional design makes it ideal for both storage and workouts**
 - **Sleek modernist and minimalist design**

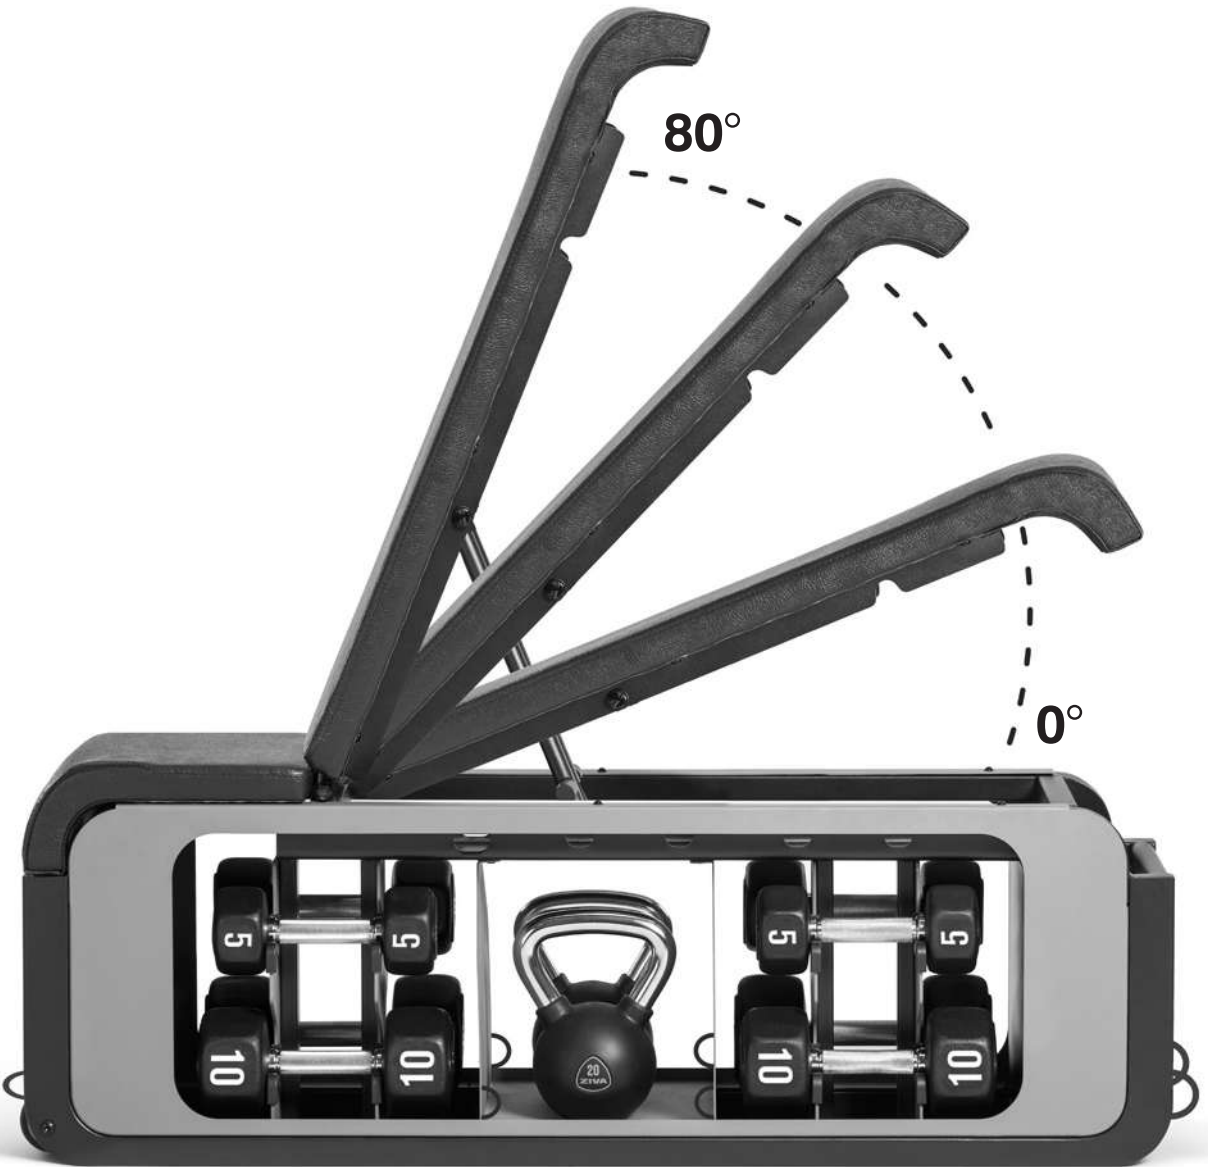

EX FUNCTIONAL BENCH

The ZIVA® Functional Bench is a marvel of versatility. It serves to store dumbbells, kettlebells, and resistance bands; it is a supremely stable flat bench that easily lifts to an 80° incline bench; and its heavy-duty handle serves as an anchor for resistance bands and battle ropes, turning it into a complete workout hub. Crafted from plate steel and steel tubing with a thick, comfortable foam cushioned bench, the Functional Bench is available in two sizes and also includes built-in wheels that make it easy to move from one place to another despite its powerful construction.

HIIT RPU AND TPU HEXAGON DUMBBELLS

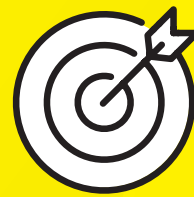

HIIT workouts, with their emphasis on speed and intensity, can be so tiring that they leave participants half blind with tunnel vision. With our new HIIT RPU and TPU Hexagon Dumbbells, though, this is no problem. Additional large ID numbers guarantee users never lose sight of which weights they are using. These Dumbbells come in sizes ideal for HIIT workouts and use a UV-, corrosion-, water-, scratch-, and tear-resistant RPU coat that holds shape and color better than rubber alternatives or corrosion- and water-resistant TPU coating. And scratch-proof, chrome-finished handles with full grip-assisting knurling along their entire shaft mean they stay in hand no matter how intense the HIIT session.

EX 10-PIECE BARBELL RACK 2.0

The ZIVA EX 10-Piece Barbell Rack 2.0 keeps barbells perfectly arranged and has an unmistakably artful look thanks to its signature curved design. Crafted from powder-coated thick oval steel tubing with glass-filled grey nylon saddles that offer barbells a protective cradle, this Rack is made to handle exhausted users' slamming weights down without taking a nick, dent, or scratch. With floor-protecting footpads, it safeguards the surroundings, the weights, and users themselves. The Rack's undeniably premium look can be customized by swapping out its grey panels, giving gyms the ability to define their own standards for beautiful organization.

EX DISC STORAGE STATION 2.0

The ZIVA EX Disc Storage Station 2.0 is an organizational and design masterpiece that looks as much like a modern art piece as it does a piece of gym equipment. The Storage Station 2.0 is crafted from thick steel plate, scratch-resistant polished steel storage posts, and grey panels that can be customized with the most detailed logo and any Pantone color. Its economical use of floor space means it fits most anywhere but with its fashionable profile you may want it front and center.

Order Code	Item Description
ZEX-DTVS-7314	EX Disc Storage Station 2.0

Description		EX Disc Storage Station 2.0
Specifications		Made with thick plate welded steel reinforced frame, branded boards front and back with chrome colored hardware and polished steel storage spindles

Warranty		Limited 10 year warranty on frames and welding, 1 year on plastic parts

EX KETTLEBELL RACK 2.0

The ZIVA EX Kettlebell Rack 2.0 holds up to 10x kettlebells on its PVC-lined and -edged shelves, making it a storage space that both protects and shows them off. This Rack is built tough with a solid steel, heavy-duty frame crafted from plate steel and steel tubing that have a scratch- and corrosion-resistant black powder-coat finish, and its grey accent panels can be customized with any Pantone color. Protective foot pads keep floors pristine while handsome chrome hardware allows for bolting in place, but with the Rack's impressive 55kg heft, not including the kettlebells' weight, this is hardly necessary.

Order Code	Item Description
