

ZIVA®

VELOCITY

THE STRENGTH TO RACE

ZIVA®

THE WAY TO LIVE™

ZIVA® is an elite-performance sports and wellness brand. Distilled to its essence, our brand is driven by the peace of harmony and the joy of living, expressed most powerfully for us through sport, movement, and strength. This essential drive underpins our efforts to improve the physical and mental health of people all around the world.

This philosophy is reflected in our name. The “ZI” in ZIVA comes from the name of the founder of Daoism, an ancient Eastern religion that emphasizes harmony; living in accord with both the nature around you, and with your own nature; and cultivating an attitude of gratitude and happiness by following what it refers to as “The Way.” The “VA” in ZIVA is the second half of the Spanish word “viva,” which means to live fully, to strive with all your heart, and which is an exclamation proclaiming the absolute joy of life and all that it entails.

Our philosophy is embodied in our products. Their premium, progressive design is made to exist in beautiful, artful harmony with high-class gyms and modern homes while their rugged, high-performance functionality invites movement and energetic exertion.

And our philosophy is lived by every team member every day as we work in harmony with one another, joyously striving to bring holistic fitness to the world.

This is ZIVA and our WAY TO LIVE.

VELOCITY
Series

ZIVA has always been a pioneer in the functional fitness movement — and now we have brought our pioneering innovation to the global stage of functional fitness competition. The ZIVA Velocity Series delivers premium performance across every station of today's most dynamic race-style fitness events, from cardio to kettlebell swings and bag squats to rope slams. Built for intensity, crafted for long-lasting durability, and trusted by athletes at every level, Velocity is the new high-performance standard for high-intensity fitness racing.

ZIVA's legendary reliability means competitors can push harder, recover faster, and train smarter — without ever worrying about their equipment keeping up.

Velocity is forged for teamwork, backed by trust, and built for the ZIVA Way to Live.

CARDIO
for competition

Built for high-output effort, the Velocity Ski Trainer brings ZIVA's hallmark durability to every downward drive.

1. Ergonomic handles
2. Built with a durable steel frame
3. 5" Hi-Fi LCD display provides real-time metrics, including calories, cadence, watts, heart rate, and more
4. Bluetooth connectivity for seamless tracking
5. 10 adjustable resistance levels for tailored intensity
6. Built-in wheels for easy mobility

VELOCITY SKI TRAINER

The ZIVA Velocity Ski Trainer brings the full-body challenge of Nordic skiing indoors—powering HIIT workouts, functional circuits, and endurance programming with smooth resistance and commercial-grade toughness. Built with a reinforced steel frame and finished in ZIVA's signature black powder coat, this machine stands up to sweat, motion, and relentless use. With 10 resistance levels, ergonomic handles, and built-in mobility wheels, it's designed for adaptability in high-traffic group zones. Whether it's for cardio conditioning, explosive strength, or low-impact power, the Velocity Ski Trainer moves with purpose—and looks the part.

Order Code	Item Description
ZHX-SECT-7070	Velocity Ski Trainer

Specifications		Crafted with a robust steel frame and a sleek, with 10 adjustable resistance levels. Powered by a self-sufficient system, its 5" Hi-Fi LCD display tracks essential metrics in real time, including calories, cadence, strokes, watts, and heart rate. With Bluetooth connectivity for easy app integration and built-in wheels for effortless mobility.
Product Color		Black / Yellow Charcoal / White / Grey
Dimensions		L:128cm x W:73cm x H:219cm - 56.5kg
Warranty		Limited 2 year warranty

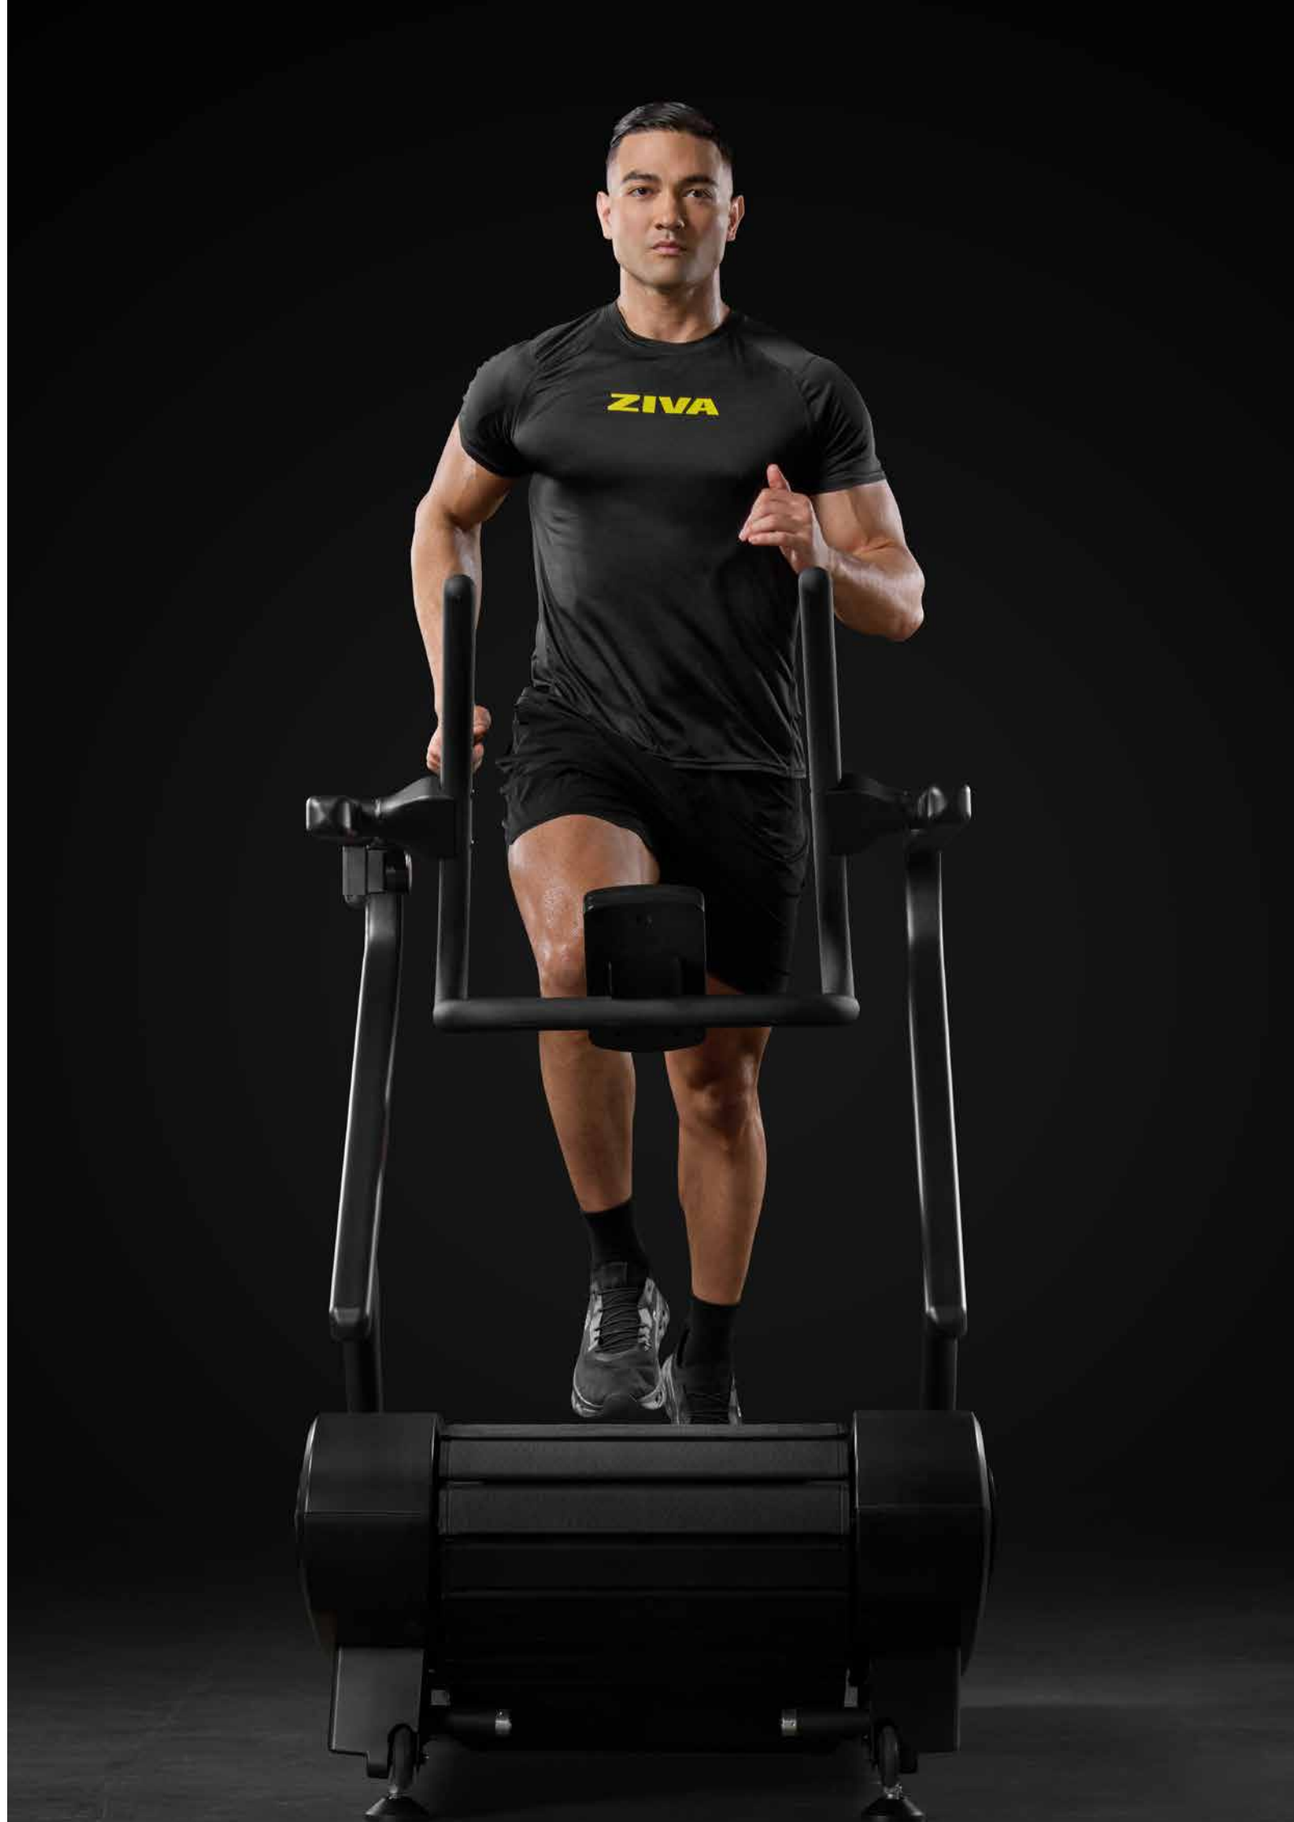

VELOCITY CURVED TREADMILL

The Velocity Curved Treadmill brings smooth, self-powered performance to fitness racing. Built for high intensity and high durability for low maintenance and low running noise, the Velocity Curved Treadmill delivers a fluid, comfortable running experience that keeps athletes focused on effort, pace, and progression. Multi-level manual magnetic resistance adds a layer of training versatility, making it easy to move from pure running work into more demanding power-building efforts. This is cardio designed to look sharp, perform unfailingly day after day, and elevate the energy of every training space and fitness racing competition.

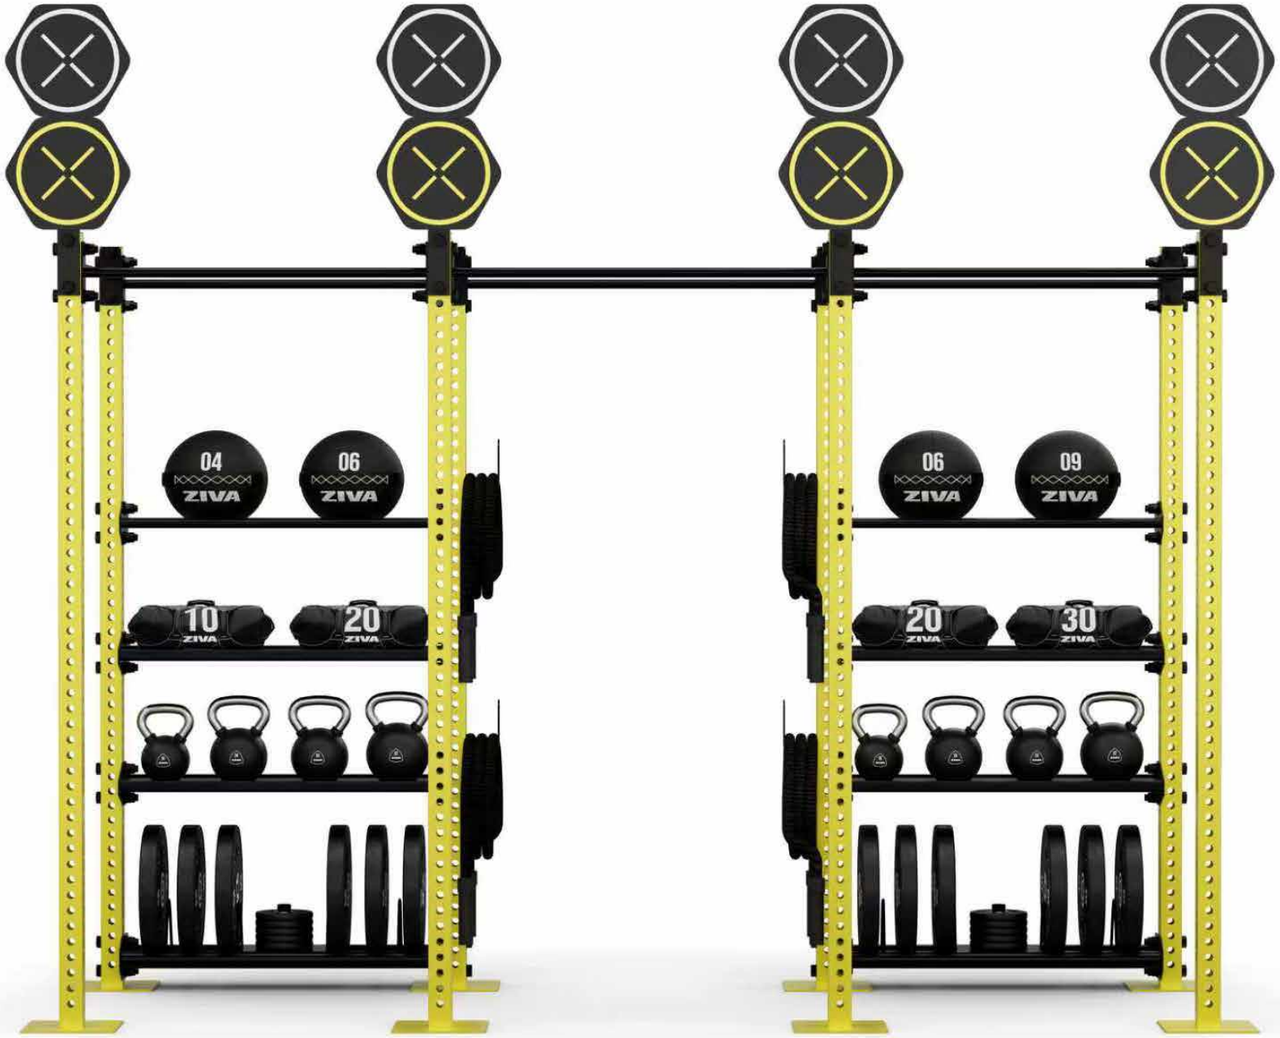

Order Code	Item Description
ZHX- CVTM-8020	Velocity Curved Treadmill

Specifications		Uses established component supply sources, including Kevlar composite flat belts and running strips, to deliver smooth, low noise performance. Built on a universal main frame, it features an updated exterior design and is available with either an LED screen or large TFT display.

VELOCITY RACE DAY STATION

The Velocity Race Day Station is a four-person training engine built to fuel the intensity at every station of competitive fitness. Its two-lane layout with integrated storage — 4 shelves for functional tools and 4 battle rope hooks, and 2 shelves for balls and 2 for bumper plates — means multiple users can workout and all the equipment remains perfectly accessible from the opposite side. Everything needed for complete circuits and fast transitions lives on this single rig, making it the perfect solution for high-intensity, small-group sessions, timed circuit training, and highly competitive fitness racing formats.

Velocity Complete Class-Ready Kit

VELOCITY RIG ATTACHMENTS

Velocity Rig Attachments transform Velocity Rigs into fully tailored fitness racing solutions. Designed to cover both organization and performance, the attachments includes storage-focused options for functional fitness and race essentials as well as workout-station attachments that expand how Velocity can be used on the floor. Buyers can equip their Rigs to suit their exact class model, including everything from grab-and-go storage for fast transitions to wall ball and battle rope-based stations that bring more action directly onto the structures themselves. Together, these attachments make it easy to create a cleaner, smarter, more versatile race-training environment.

VELOCITY UNIVERSAL STORAGE RACK

Built to fuel the fierce pace of HIIT-style training, the ZIVA® Velocity Universal Storage Rack is a statement piece that organizes chaos into clarity. With space for everything from kettlebells to battle ropes, sandbags to weight plates, this rack doesn't just store equipment — it puts it on proud display. Designed for the heart-pounding rhythm of high-intensity group classes, it elevates the training environment by keeping gear off the floor and within easy reach, so athletes can stay locked in, and communities can train without distraction.

VELOCITY COMPLETE CLASS-READY KIT

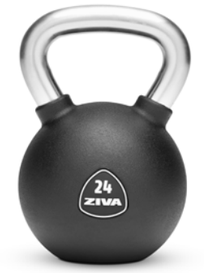

Open the doors and run the class. The ZIVA® Velocity Complete Class-Ready Kit bundles the essential tools of fitness racing — wall balls, battle ropes, power sand bags, kettlebells, bumper plates, and fractional discs — into one purpose-built package. Pair it with a Velocity Rig or the Velocity Universal Storage Rack and you've got a fully equipped setup for strength, skill, and conditioning blocks with no guesswork, no piecemeal ordering, and no delays. Every piece is commercial-grade, ultra-durable, and chosen for high-tempo, high intensity circuits so coaches can set stations in minutes and keep athletes moving from first rep to final round.

VELOCITY WALL BALL

The ZIVA® Velocity Wall Ball pushes the envelope of durability and design beyond the previously possible. This full-body strength, coordination, and intense cardio tool has been significantly upgraded with a more fully rounded inner core that better holds its shape, making it more directly applicable for ball sports training. The Velocity Wall Ball is far tougher than the average wall ball thanks to strengthened stitching along every seam. This elite-level equipment inspires users to push themselves to build explosive power, cardio endurance, and quick relfexes through all the compound movements it makes possible.

Order Code	Item Description
ZHX-FTWB-9652	Velocity Wall Ball 4kg

VELOCITY POWER SANDBAG

The ZIVA® Velocity Power Sandbag brings raw, real-world resistance to functional fitness floors. Designed to challenge stability, coordination, and control, this dynamic training tool features an internally shifting weight core that keeps muscles firing with every move. Whether it's being thrown, dragged, or lifted in high-intensity group settings, the Velocity Power Sandbag builds functional strength through instability. Its grippy, soft-touch polyester shell wraps a core of rubber-encased sand and steel for a clean feel and rugged durability. Multiple reinforced handles open up endless training possibilities for classes that move fast and train harder.

VELOCITY BATTLE ROPE W/SLED PULL CLIP

The ZIVA® Velocity Battle Rope with Sled Pull Clip transforms a functional fitness essential into a dynamic, dual-purpose powerhouse. Designed for the rigors of high-volume commercial use, this rope not only delivers explosive upper-body and core conditioning, but also doubles as a sled pull training tool, thanks to a heavy-duty clip integrated on one end for fast attachment to any sled with a D-ring or anchor point. Whether used for undulating waves, slams, or resistance drags, this rope offers unmatched versatility for circuit stations, bootcamps, and strength-conditioning zones.

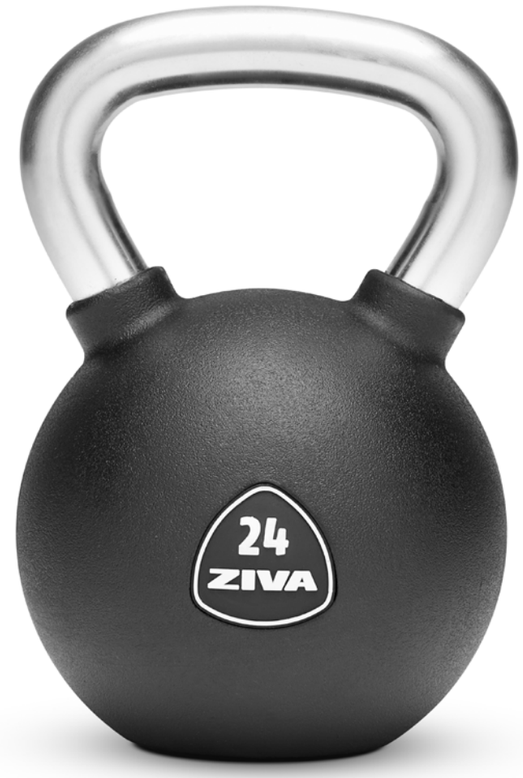

Order Code	Item Description
ZHX-BTRP-0910R	Velocity Battle Rope W/Sled Pull Clip (3.8cm x 12m)
ZHX-BTRP-0914R	Velocity Battle Rope W/Sled Pull Clip (3.8cm x 15m)

Specifications		PP and nylon intertwined rope with rubber handles, steel securing ring, patented wrist straps and a detachable steel pull clip.
Product Color		Black
Warranty		Limited 1 year warranty

VELOCITY KETTLEBELL

The ZIVA® Velocity Kettlebell is designed to deliver performance that hits hard — without hitting floors hard. Ideal for high-intensity, functional training environments, this kettlebell features a premium virgin rubber coating that softens every drop with reduced bounce, quieter landings, and superior surface protection. Its sleek, ultra-durable chrome handle resists scratches and dings, offering a secure grip and polished aesthetic that makes it as much a visual statement as it is a performance tool. Built to be bold, tough, and relentlessly versatile, this is the kettlebell your functional fitness zone deserves.

Order Code	Item Description
ZHX-RBKB-4326	Velocity Kettlebell 16kg
ZHX-RBKB-4328	Velocity Kettlebell 24kg
ZHX-RBKB-4330	Velocity Kettlebell 32kg

VELOCITY BUMPER DISC

Built for the explosive energy of barbell-focused functional fitness, ZIVA® Velocity Bumper Discs are the go-to solution for fast-paced classes centered around Olympic-inspired lifts. Made from dense, durable, floor-friendly rubber, these plates absorb impact, reduce bounce, and withstand repeated overhead drops with ease. The chrome-plated internal hub ensures a smooth, reliable glide on and off the barbell, while beveled edges make loading and unloading fast — because when the pace is at race speed, every second counts.

Order Code	Item Description
ZHX-BPRB-5296	Velocity Bumper Disc

Product Color		Black / White
Warranty		Limited 2 year warranty

VELOCITY FRACTIONAL DISC

Progress isn't always made in big jumps — and the ZIVA® Velocity Rubber Fractional Discs are built for lifters who know that strength is forged in the details. Precision-engineered in small, manageable increments, these discs empower athletes to make steady, measurable gains while reducing injury risk. Finished in durable rubber for safety and floor protection, and equipped with a chrome central insert, each disc glides effortlessly onto the bar and rotates smoothly through every rep—ideal for high-volume training and Olympic-inspired lifts.

Order Code	Item Description
ZHX-BDRB-9019	Velocity Fractional Disc

ZIVA

VELOCITY POWER SLED

The ZIVA® Velocity Power Sled is built for those who refuse to back down from a challenge. Engineered for explosive power, endurance, and full-body strength, this sled is a functional training powerhouse. With dual-pole push handles on both sides, athletes can drive forward from multiple heights, grasping wherever is most comfortable or most challenging, offering endless variation. The conical pole inserts minimize vibration for a smoother, more controlled push and make setup effortless—insert or remove, and go. Crafted from ultra-tough 3mm thick steel and finished with a scratch- and corrosion-resistant coating, this 50kg sled is made to take a beating and keep going. And an anchor point means a battle rope, suspension trainer, or resistance bands can be attached for even more functionality. Stack on the weight, grip tight, and push limits.
